Town Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Exeter, qualified to vote in Town Affairs:

You are hereby notified to meet in the Town Hall, in said town, on the second Tuesday of March next, at ten o'clock in the forenoon, to act upon the following subjects:

1st. To choose by ballot and major vote a town clerk.

2nd. To choose by ballot and major vote one selectman for three years.

3rd. To choose by ballot and major vote one trustee of the Robinson Female Seminary for the term of seven years.

4th. To choose by ballot and major vote one trustee of the trust funds held by the Town of Exeter, to hold office for three years.

5th. To choose all other necessary town officers, auditors, or committees for the ensuing year.

6th. To raise such sums of money as may be necessary for the maintenance of the poor, for repairing highways, for repairing and building bridges, for repairing and building sidewalks, for building drains and sewers, for oiling the streets, for payment of the town debt, for lighting streets, for defraying the expenses of decorating the graves of Union soldiers, for preventing the spread of insect pests within the town, and for other charges arising within the town, and for the payment of the firemen for the ensuing year.

7th. To hear the reports of the committees heretofore chosen and pass any vote relating thereto.

8th. To see what sum of money the town will raise and appropriate for the use of the Robinson Female Seminary during the coming year.

9th. On petition of Forrest L. Ellison and twelve others, to see if the town will vote to extend the sewer from the junction of Epping and Brentwood Roads up Brentwood Road

to connect with sewer on Washington Street, and appropriate the sum of eight hundred dollars (\$800) for the same.

10th. On petition of Henry A. Shute and sixteen others, to see if the town will appropriate \$500 for a series of ten band concerts to be played by the Exeter Brass Band.

11th. On petition of Joseph T. Broderick and fifty others, to see if the town will vote to rebuild, with cinders or other suitable material, the sidewalk on the southerly side of Front Street between Cottage Street and the Railroad Crossing, and appropriate money for the same.

12th. On petition of C. Charles Hayes and seventeen others, to see if the town will vote to sell the stone crusher and equipment now located on the Kingston Road and apply the proceeds from the sale of same to improve our dirt sidewalks.

13th. On petition of C. Charles Hayes and sixteen others, to see if the town will vote to purchase a sufficient number of additional trucks to perform the work of the highway department and to provide for the payment of the same.

14th. On petition of William H. Seward and twenty-five others, to see if the town of Exeter will vote to purchase a compressed-air fire alarm system, and appropriate money for the same.

15th. On petition of John Templeton and seventeen others, to see if the town of Exeter will vote to repair the old Town Hall on Court Street, now used as the hook and ladder house, and appropriate money for the same.

16th. On petition of Albert Mazurka and twenty-one others, to see if the town will vote to build a sidewalk on the north side of Wentworth Street to run from McKinley Street to the residence of Stephen Mazurka.

17th. To see if the town will appropriate the sum of one thousand dollars (\$1,000) for its proportionate share of building a granolithic sidewalk on Center Street and on Water Street, beginning at C. E. Haley's store and extending to the Ioka Theatre.

18th. On petition of Alexander Plouff, Jr., and seventeen

others, to see if the town will appropriate money to extend and maintain the street lights on Linden Street to the Kensington town line.

19th. On petition of Percy E. Jewell and nine others, to see if the town will vote to install an electric light on Green Street opposite the residence of Harold Shaw, and appropriate sufficient money to maintain the same.

20th. On petition of James H. Horne and ten others, to see if the town will vote to extend the electric light line, with six lights, from Gooch's corner to Brentwood line on Pickpocket Road and appropriate money to maintain the same.

21st. On petition of Mrs. William D. Gilmore and twenty-one others, to see if the town will erect an electric street lamp at the junction of Prospect Street and Prospect Avenue.

22nd. On petition of Everett H. Button and eleven others, to see if the town will vote to place an electric light on Columbus Avenue near the Wadleigh mill and appropriate a sufficient sum of money to maintain the same.

23rd. On petition of Albert Mazurka and twenty-seven others, to see if the town will vote to place a street light at the corner of Washington and McKinley Streets for the convenience and safety of the people residing and passing there and appropriate sufficient money for the installation of said light.

24th. To see if the town will vote to buy the Exeter Water Works as recommended by the Committee, and if the town decides to buy the Exeter Water Works to see if the town will elect, as provided in Chapter 220 of the laws of New Hampshire, enacted in 1893, three water commissioners to serve one for 1 year, one for 2 years and one for 3 years.

Given under our hands and seal this twenty-first day of February, 1927.

May 9, 12.30 P. M., alarm from Box 45 for brush fire, starting in Newfields and soon spreading to Exeter, fanned by a strong wind that kept it going so fast that it could not be stopped till night. It went over about 1300 acres in spite of all that 400 men could do to stop it. For the following six days it caused a lot of trouble. In all of this time seven alarms were pulled in to call out firemen to combat places that kept breaking out at each change of the wind, also keeping men on watch night and day. A good number of men and firemen worked continuously for the first two days and

nights and at this time I want to thank them and all others for their willing support.

May 12, 3 A. M., alarm from Box 26 for fire which destroyed the barn of Milton Read on Main Street, caused by wiring on auto becoming short circuited. A necessary work, important to those who have the books in charge, has been the re-arranging of the entire library of more than twenty-four thousand books, also the Perry Collection of nearly two thousand books.

By the new arrangement there will be space enough on each section of all the stacks for a few years' growth.

We have not ceased to cherish the hope that before a great many years the land owned by the town at the side and rear of the building will be used for an extra stack room and an enlarged children's room.

There has been one change in the staff; the children's librarian left at the end of the summer and her place was filled without annoying delay.

The children's room is an important part of the library and, under present management, much has been done to make these small quarters attractive. All the available wall space has been covered with pictures mounted in bright colors. There is much here to entertain and instruct the children.

At present they are working on their third picture puzzle of a map of the United States.

"Children's Book Week" in November became, with our library, an annual celebration from the start and is a never ending pleasure to the children.

This year, as in the past three or four years, two bulletins of new books have been issued.

Early in June, a fineless week was tried; fifty-five books were returned and the fines cancelled. We had anticipated the return of many more.

Robinson Female Seminary

PRINCIPAL'S REPORT

To the Honorable Board of Trustees:

The enrollment in the Seminary is the same as last year, 263, of whom 76 are tuition pupils.

There were four changes in the teaching staff this year. Miss Priscilla Williams, a graduate of the Seminary in 1920 and of the University of New Hampshire in 1924, who has taught in Oxford, Mass., for two years, succeeded Frances Philbrook Boal in Latin and Mathematics; Miss Margaret L. Smith, a graduate of Tufts in 1925, who taught last year in Lebanon, N. H., succeeded Beatrice Smith Patridge; Miss Leila Bessey, a graduate of the Keene Normal School, who also has specialized in drawing and art at the University of New Hampshire and taught last year in Wolfeboro, succeeded Miss Eleanor Bardwell in drawing; Miss Ruth Hopper, a graduate of the Seminary in 1926, succeeded Miss Ella Higgins as secretary.

The interest and enthusiasm for school tasks which the new teachers showed from the very beginning of their appearance in the Seminary gave promise of exceptional success. Their loyal and willing co-operation in every detail of school routine has entirely fulfilled our expectations.

The gratifying report that all the girls taking College Board Examinations in June had passed them successfully added to our good cheer as we began the work of the fall term. This feeling was given additional impetus by the spirit of earnestness which the pupils showed and the results which followed.

The University of New Hampshire this year has arranged a twelve-week term of practice teaching for its cadet teachers in domestic arts, instead of eight weeks as in former years. Miss Bernice Poor, of Atkinson, and Miss Catherine Page,

of Weare, the cadets assigned to the Seminary, began their period of training at the opening of the winter term.

Nine Seniors are taking both Junior and Senior English this year. During the fall term they were given special help and direction and all succeeded in passing both subjects. I believe this result is of extraordinary significance and justifies the conviction that it should be the business of a modern good school so to provide for individual differences as to assure success to every earnest, faithful pupil of average ability. Pupils of exceptional ability also are entitled to special consideration.

Therefore it will be our aim in the Seminary to study the individual, to teach the individual, to develop in the individual such abilities and ideals as shall give promise of sterling character and success in the best sense of the term.

I wish to convey to your Board some slight idea of the profound sense of personal appreciation which I feel for the unselfish interest, the hearty co-operation and the unfailing courtesy which has been shown to me in all that I have tried to do for the welfare of the Seminary during the past twenty-two years.

Respectfully submitted,

HARLAN M. BISBEE.

Report on Water Works

To the Legal Voters of the Town of Exeter:

Your committee, appointed at the annual town meeting of March, 1926, to investigate the condition of the Exeter Water Works and to consider the advisability of its purchase by the town of Exeter, have investigated and considered and report as follows:

Accompanied by Mr. X. H. Goodnough, consulting engineer of the Metropolitan water system of Boston, we have inspected the reservoir, pumping station and stand-pipe of the Exeter Water Works. We found the reservoir in fair condition, which could be improved. Owing to the nature of the bottom of the pond, the water is inclined to be turbid. This turbidity increases the labor and consequent cost of filtration. It seems as if this condition could be relieved at small cost by scraping the mud from the bottom of the pond at times of low water.

We found the pumping station and its machinery in very good condition. According to the pumping records, one pump which was installed about twelve years ago is working almost perfectly. The other pump, which is much older, does fair work, but shows some slippage which detracts from its efficiency. On the whole, it seems as if the filtering and pumping plant would require no more than the ordinary expense of upkeep for a number of years.

We examined the stand-pipe and found that, while it is in very good condition, it is not large enough to hold one day's supply of water for Exeter. Its capacity is about 220,000 gallons, whereas the town's daily consumption is 300,000 gallons, minimum, to 500,000 gallons, maximum. This con-

dition should certainly be remedied either by erecting another larger and higher stand-pipe on the location now being used, or by the erection of another stand-pipe near Winter Street, or by both. The water mains, we have every reason to believe, are in very good condition. The question of the filling of these mains by the gradual collection of deposits of rust on the inner walls is not so important as formerly because nowadays there is special machinery for scraping the inside of mains clean. There is one six-inch main, that running from Main Street through Winter Street to Front Street, which should be increased to an eight-inch main.

To sum up, we find the water works system in very good working order, supplying the town's needs with a sufficient quantity of water of a quality which compares favorably with that supplied to most cities and towns. We consider that, if necessary, the system could be used as it is, but it would serve the town much better after the changes we have suggested. In the event of its purchase by the town, all changes and additions would be settled by the committee or board chosen to supervise it.

To find out the result of town ownership of water works by a town where the water works had been previously owned and operated by an outside corporation, we visited Derry. There, Mr. Bean, the chairman of the board of commissioners, who is also superintendent of the works, very kindly gave us all the figures and information that we asked. The town of Derry, which has 918 services, where Exeter has 1103, purchased its water works in 1906, paying as everybody thought more than they should. In spite of this, the town has paid interest on the bonds issued to buy the works and make necessary additions and improvements and has shown a net profit of \$79,585. One of the first improvements made was the erection of a 1,000,000 gallon stand-pipe in addition to the 185,000 gallon stand-pipe which the town acquired with the works. The works are in excellent condition and function satisfactorily.

We are informed by Mr. X. H. Goodnough, our consulting engineer, of the fact that the purchase by other towns of their water works, which has taken place within the last three years, has resulted in satisfaction to these towns. We are informed by the same man that these towns paid for their water works about 85% of the book-value of the works plus the bonds. As the book-value of the Exeter Water Works is \$210,000 and the bonds \$50,000, we would be paying about the same percentage as these towns.

We have recently had a conference with General Elbert Wheeler, the treasurer of the Exeter Water Works, who gave us the terms on which the town could purchase its water works. General Wheeler has explained that he wanted to be relieved of his responsibility as controlling stockholder and treasurer of the Exeter Water Works. Therefore, he said that the Exeter Water Works is going to be sold to some other corporation if not to the town of Exeter and the sale will take place in the year 1927. He said that he had been approached by representatives of three large holding companies who wanted to acquire control of the Exeter Water Works with the water works of other towns. These representatives were willing to pay for the Exeter Water Works an amount which would result in a net profit of 7% per annum. As the net profit of the Exeter Water Works has averaged for the last three years about \$15,500, the holding companies would give a little more than \$220,000 for the Exeter Water Works.

General Wheeler gives the town of Exeter the chance to buy its water works at the price of \$220,000, sale to be completed and management taken over by July first, 1927. He will await the result of the vote at the town meeting of March 8. He further stipulates that, in the event of the sale of the Exeter Water Works, his corporation will bear no tax for 1927. In other words, General Wheeler's message to the town is, in substance, that the Exeter Water Works Corpora-

tion have customers for its water system to whom they will sell if the town of Exeter does not buy.

As the improvements needed will probably cost \$50,000, Exeter must pay about \$270,000 for its water works with improvements. This, before consideration, seems a prohibitive price. However, the earnings of the works as shown in the following profit and loss statement of the Exeter Water Works have been, and should continue to be, sufficient to make it good financing for the town of Exeter to pay this price for the Exeter Water Works.

The net profit of the Exeter Water Works as shown for the year of 1926 is as follows:

		435.92
		<hr/>
Total revenue	\$41,308.51	

Less Expenses:

Station wages	\$3,431.71
Purification labor	517.85
Fuel for steam	3,629.66
Lubricants	133.43
Pumping station supplies and expenses . .	161.86
Purification supplies and expenses	1,093.08
Repairs, source of supply	146.65
Repairs, water supply structures	235.17
Repairs, pumping station equipment . . .	184.78

Taxes.....	5,450.44
	<hr/>
	\$26,229.83

Net profit.....	\$15,078.68
-----------------	-------------

This net profit would be greatly increased by savings in operating expenses due to town ownership. A low estimate of these savings is as follows:

Saving in expense of maintaining Boston offices...	\$2,550.00
Saving income taxes about.....	1,550.00

Total.....	\$4,100.00
------------	------------

Add to this net profit as shown by Exeter Water

Works.....	15,078.00
------------	-----------

\$19,178.00

Deduct from this interest at 4%

on \$220,000.....	\$8,800.00
-------------------	------------

Depreciation 1%	2,700.00
-----------------------	----------

\$11,500.00

This leaves a net profit for the town of \$7,678.00 beyond all expenses. If the town management omitted making improvements, this net profit would be increased by the saving of interest at 4% on that amount, leaving a net profit to the town of \$9,678.00. In making these calculations, it is assumed that the cost of operation and the gross income would average the same as they have for 1926 and as they have for the last three years.

If we want the improvements in our water works system, we can have them under town ownership without paying increased water rates. If we enjoy these improvements with the ownership in the hands of a new corporation, not the town, we shall undoubtedly have to pay an increased water rate.

After due consideration of all that we have here enumerated, we, as a committee, are inclined to recommend the purchase of the Exeter Water Works by the town of Exeter.

FRANK H. WADLEIGH,
WILLIAM A. YOUNG,
ARTHUR O. FULLER,
ALBERT S. WILLEY,
DANA W. BAKER.
